This is the Parties' tenth request to extend the scheduling 18 order. 19 1. Reasons to Extend. As mentioned in the Parties' last stipulation (ECF No. 36), both Mr. Mayes 20 (guardian for Mr. Reid) and Plaintiffs' retained economist Dr. Terrence "Mike" Clauretie 21 have recently passed away. As described in the Parties' last five stipulations to extend 22 discovery (ECF No. 26, No. 28, No. 31, No. 34, & No. 36), guardian Wayne Mayes had 23 been treating his recently-diagnosed, advanced-stage cancer. Although Mr. Mayes was 24

wrapping up treatment and reported a positive outcome, he took a sudden turn for the

guardianship court on her petition to become successor guardian over her husband

worst in June.

Harry. In the meantime, in this case, counsel for Plaintiffs is at a roadblock without a personal representative to make strategic client and financial litigation decisions for Mr. Reid. Accordingly, future deadlines should be reset based upon that state guardianship hearing, plus some leeway for any unforeseen issues in that court. Regarding Dr. Clauretie's passing, Plaintiffs require a forensic economist to prove

damages. Dr. Clauretie was Plaintiffs' retained economist since before litigation (i.e., he prepared a report submitted with Plaintiffs' prelitigation FTCA Administrative Claim). Plaintiffs must retain a successor expert economist with sufficient time before initial expert deadlines, which is not possible without a guardian to make Mr. Reid's client / financial decisions over funds held in trust pursuant to the state guardianship court's order.

Further, as mentioned in the Parties' prior stipulation, there has been some difficulty obtaining Plaintiff Lucille Lagasse's mental health records. A subpoena for the mental health records was issued on June 21, 2023. A few responsive documents were provided; however, the mental health treatment center indicated that the licensed therapist that was treating Ms. Lagasse is no longer employed by their office and no patient notes or files were provided. The United States has begun the process of determining whether the files no longer exist or were taken by the licensed therapist when she left the employment of the mental health treatment center.

Complete records would be beneficial to physician depositions, for expert reports and depositions, and for accurate damages calculations. Further, the written reports of the expert(s) would likely change based upon final medical records, and which would require both Parties to likely incur additional and substantial litigation costs. Finally, not planning for the above issues now would likely result in more difficult, last-minute delays on orders-shortening-time further into discovery.

Additionally, as set forth in the prior stipulations, counsel for the United States has sought the deposition of the author of the NHP Crash Report. Although the United States believed it had secured a date, Officer Muir has not returned repeated phone calls to confirm a date for Plaintiffs' and Defendant's counsel to travel out of state to conduct the deposition. As a result, at this juncture, a deposition subpoena will need to be served on Officer Muir in order to compel his attendance at a deposition.

Because Officer Muir's testimony would assist the Parties' liability experts, the Parties would incur additional and substantial litigation costs to do multiple rounds of expert reports under the current schedule, if Officer Muir's deposition transcript were unavailable prior to the current Expert Disclosure Deadline.

For the reasons set forth above, the Parties believe good cause exists to extend the discovery deadlines in this matter.
